Kiwanis Club Urges Use of Side Streets For Parking Merchants' Cars

business and Professional Men of Hicksville gentlemen.

The parking problem of Hicksville has received considerable comment in the press.

You have probably heard what is wrong and what should be done. You probably have a few ideas on the matter yourself.

We, the members of the Hicksville Kiwanis Club, have also given the matter some thought at several of our meetings. Like yourself, we too are business and professional men of Hicksville and naturally, as you have the best interest of Hicksville at heart.

We have pledged ourselves to help relieve the parking problem by parking our own automobiles on the side streets.

We hope and trust that you too will join in this pledge.

It is not known exactly how many of the automobiles and cars parked on Broadway for periods of several hours or longer a day are those of merchants and professional men themselves, but it stands to reason that every car so parked takes up space that might well be used by the customers and patrons.

Let's co-operate one hundred per cent. on this proposition.

Let's keep our cars on the side streets, out of the way and yet handy when needed.

Surely the inconvenience, if any, will be reflected in increased satisfaction to the shopper and patron.

Let's keep Hicksville what it has always been—the shopping centre for the Town of Oyster Bay and vicinity.

Sincerely yours, TRAFFIC COMMITTEE Hicksville Kiwanis Club.

CALLING ALI, PARENTS — Leading Hicksville merchants in co-operation with the Centre Island News are offering a fine array of gifts to the first baby born in Hicksville, Bethpage, Syosset, Jericho, Plainville, Woodbury after the stroke of midnight, December 31, 1937. So far no one has made an offer to take the set of gifts which include presents for the parents as well as the baby. We call upon all local residents to write a postal card or call Hicksville 12 or 44 as soon as you read this notice if you know the first baby born.

The baby may also be born in an out of town hospital, but the child's parents must be residents of one of the communities listed above.

Physicians are also asked to notify the Centre Island News at once. Parents or interested friends must produce a doctor's certificate or other evidence as to the time and place of the event. A bottle of wine, toys, flowers, ice cream and other gifts are waiting. All they need is a taker. Let's hear about it.

"BUILDING A STRONGER GENERATION" is the theme for the 28th birthday celebration to be observed nationally February 6 to 12 commemorating the founding of the Scouting Movement in America.

In "living" demonstrations of the things Scouts know and do in various "Good Turn" projects related to safety education, in their ceremony of reaffirming their Scout Oath and Law, in their observance of Scout Sunday, Scouts will reveal their growing strength and preparedness to face the exciting demands of participating citizenship.

Reading between the lines of what Scouts are doing, a deeper significance becomes apparent expressed in boyish attitudes towards life — attitudes influenced by Scouting which causes boys to exhibit a cheerful spirit, a preparedness to accept responsibility, a willingness to be helpful, and a confidence in themselves strengthened by a working knowledge of trustworthiness, loyalty, courtesy and cleanliness which are the tools of integrity.

Scouting may be a boy's game, but it is truly a constructive game which is building a stronger generation.

COL. HOWARD C. SMITH Retired member of the Oyster Bay Town Board.

ELMER G. BROOKS New Councilman on the Oyster Bay town board.

TOWN OFFICIALS HONOR RETIRING COUNCILMAN Col. Smith Lauded for Work While Member of Oyster Bay Town Board

Col. Howard C. Smith of Cove Neck is the first councilman-emeritus of the Town of Oyster Bay today. The Oyster Bay councilman ended a four-year term of office, Saturday.

Col. Smith was feted by the official town of Oyster Bay "family" at a surprise party in his honor at Rothman's East Norwich Inn last week on Wednesday night.

At the dinner, which was attended by leading town and county public officials, he was presented with a leather-bound, hand drawn resolution of the town board centering on him the honorary title.

The work of Councilman Smith on the affairs of the town and county projects was lauded by speakers at the meeting. Supervisor Harry Tappan was principal speaker and Councilman Thomas C. Wade of Locust Valley toastmaster and chairman of the committee in charge of arrangements for the affair.

In receiving the special resolution, Col. Smith refused to take the credit for any special work while a member of the town board. He said "no one man on the Oyster Bay town board stands out above the rest on the town board. They all worked hard in hand to provide an efficient administrative group."

Among those present at the affair were: Col. Smith, Supervisor Tappan, Tax Receiver John E. Duray, Councilman Wade, John W. Anderson and John R. Brann, Councilman-elect Elmer G. Brooks, Assemblyman Hall, County Clerk Ransom, Justices of the Peace Eugene L. Flanagan and Joseph P. Lebkuecher, Supervisor's Secretary Mary Hanophy, Welfare Officer Maude Robinson and Town Clerk Charles I. Wood.

Highway Superintendent Henry Schepf of Hicksville was delayed by a previous engagement and sent his regrets.

Local Boy Scouts Start Campaign To Climax With 28th to Centre Island News

Armed with the slogan, "Building a Stronger Generation," Hickville, Syosset and Bethpage Boy Scouts will embark upon a campaign of visual safety education February 12 to climax their celebration of the twenty-eighth anniversary of the founding of the Scouting Movement in America.

Having dubbed this activity with a typically Scout-like name, "Living Expo" plans are forming to utilize safety methods through staging "live" exhibits in the shopping centers of the center island area so that all persons may become alert to proper action both in the homes and on highways which will reduce the toll of needless accidents.

In addition to safety demonstrations, Scouts also will reveal plans for fire prevention and first aid methods as learned in Scouting, thus creating a "living" exposition of the program. More than a million Scouts and leaders in the year-round health and safety training program of the Scouting Movement.

Brandt Announces Promise of Tappan Angle Subject To Consideration

Special to Centre Island News

Engineers will make a study of Hicksville's business section parking problem. It was revealed today by Councilman John R. Brandt of Hicksville.

Mr. Brandt, while he admitted the parallel-diagonal plan recently installed and now in use on Broadway has been successful, said he is not completely satisfied with the parking situation.

Request to Supervisor At his request Supervisor Harry Tappan has promised to send several county engineers to Hicksville soon after the first of the year to make a complete scientific study of the parking situation and to present a technical report.

It is believed the engineers may recommend the resumption of diagonal parking on both sides of Broadway with one change from the old method. Instead of parking cars at an angle of 45 degrees to the curb, the engineers are expected to suggest parking at an angle of 20 degrees to the curb.

CHRISTIAN SCIENCE
 "Sacrament" is the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, January 9.
 The Golden Text is: "The cup of blessing which we bless, is it not the communion of the blood of Christ? The bread which we break, is it not the communion of the body of Christ?" (1 Cor. 10: 16)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "But when the morning was now come, Jesus stood on the shore; but the disciples knew not that it was Jesus. Then Jesus said unto them, Children, have ye any bread? They answered him, No. And he said unto them, Cast the net on the right side of the ship, and ye shall find. They cast therefore, and now they were not able to draw it for the multitude of fishes... At noon then as they were come to land, they saw a fire of coals there, and fish laid thereon, and bread. Jesus saith unto them, Come and eat. And none of the disciples durst ask him, Who art thou? knowing that it was the Lord" (John 21: 6, 9, 12).

The Lesson-Sermon also includes the following correlative selection from the textbook of Christian Science, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "what 'last supper' between our spirits' last supper and his last spiritual breakfast with his disciples in the bright morning hours at the joyful meeting on the shore of the Gallean Sea... This spiritual meeting with our Lord in morning, meal which Christian Scientists commemorate" (pp. 24-25).

Nassau's Skating Centre

But All Long Island And Part of Upstate Comes To Mineola, Finest Roller Skating in The World

The Mineola Skating Rink is located at the fairgrounds of the Nassau-Queens Agricultural Society at Mineola.

The Rink has become known during its nearly four years of existence as one of the foremost health and recreation centres for young and old on Long Island.

Last year, before its opening for the season, it was entirely redecorated, enlarged and done over at considerable expense. It is now declared to be the largest and finest roller skating rink in the world.

Earl Van Horn and Henry C. Bickmeyer are proprietors of the rink. The following is the history of the formation and development of the rink to the present day.

The summer of 1934 was an eventful date for those who are employed and enjoy the gentle art of roller skating, as now known here at Mineola; for it was at that time that the Mineola Rink was born. Roller skating had made its first appearance on Long Island in a rink on this present location about six months before then. In fact it had just closed when Mr. and Mrs. Earl Van Horn, professionally known as Van Horn and Ines (a roller skating act which had performed before Royalty in Europe), took it over.

"Van", as he is familiarly known, had been thinking for some time of

EARL VAN HORN

BEGINNER'S PARADISE — Special smaller rink for beginners with competent instructors and instructresses on hand.

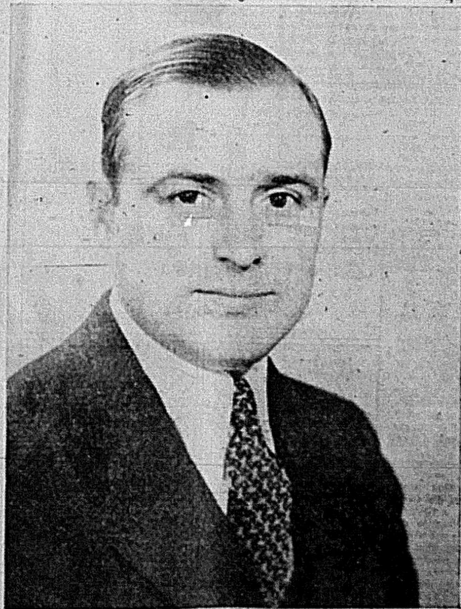

starting a rink, and saw in Mineola an opportunity to put that dream into effect—which he did, despite the extreme skepticism of many.

Van had some pet ideas as to how a rink should be run, and judging from the way the Mineola Rink has grown and prospered since then, he knew his business. Fast skating and racing were out. What he wanted to see in his rink was graceful dancing on skates, and he provided instructresses to teach the different steps. He endeavored to solicit only the patronage of a better class of skaters.

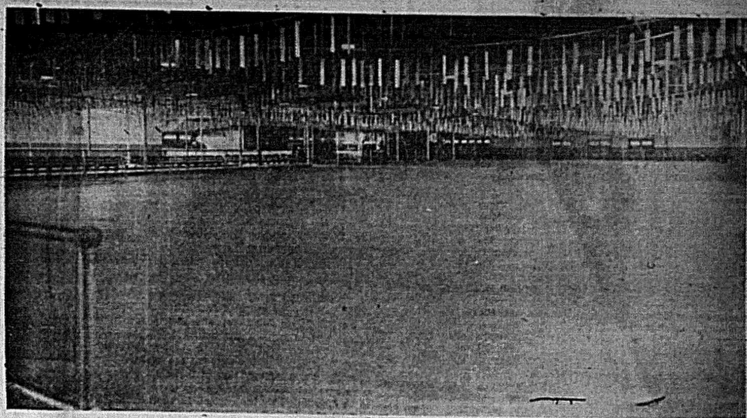

'Twas a warm summer day when Van first opened the portals, on July 2, 1934, with a rink staff of three which has since been increased to 43. Less than fifty skaters turned out for the opening, not one of whom realized what an eventful day it was, and how it would go down in rink history. Since then Mineola has grown, and grown, in size, in features, in attendance, and in reputation. Mineola is now in its fourth season, each season seeing a bigger, better, and much improved rink.

Mineola was the first rink to install a Hammond Electric Organ and is at present the only rink in the world with two of them.

Since that eventful first night three years ago to which only fifty skaters responded, the attendance has grown to such proportions that over two thousand turned out for the opening night this season.

TROJAN LOVERS; A MODERN SATIRE
The Trojan Horse, by Christopher Morley...

In 'The Trojan Horse,' Christopher Morley, ever different, uses the ancient legend of Troilus and Creusa as the central strand about which he weaves a web of Troy's destruction...

The author has consummate skill in the portrayal of character. Whether it be one of the battle lovers, or Uncle Pan, the omnipotent business mogul...

The book accomplishes, too, a marvellous combination of ancient material and modern terminology. Two amusing innovations are the radio announcing of the 'Evening Trojan,' Troy's first newspaper...

Morley has evolved for this book a new literary form, a unique blend of simple narrative and dramatic dialogue through the omission of conventional punctuation and paragraphing...

Mr. Teale has produced a marvelous nature book, a unique blend of simple narrative and dramatic dialogue through the omission of conventional punctuation and paragraphing...

Although the volume is filled with facts which are important from the practical and the philosophical standpoint they are never obtrusive. With consummate skill and with no offence to the poet, he tells that the silk worm is not a worm, the white ant is not an ant, the seventeen year locust is not a locust...

Among the many topics discussed by the author are the marvels of insect anatomy, the physiology, their reflexes, the nature of their migration, and their astounding instincts...

Most remarkable of all, and utterly bent our ken, are the instincts of the insects. They are most interestingly discussed in connection with their planning for the future...

Leaves Millions

More About Unemployment Insurance: Workers, Funds In Three Brackets

The Division of Placement and Unemployment Insurance of the State Department of Labor works in terms of millions. It has to, because it serves 3,200,000 workers insured under the New York Unemployment Insurance Law.

Millions of workers mean millions of problems to the Division. When the Division wants to reach every insured worker and most of the unemployed workers in the State, it isn't fairly who is and is not insured...

Millions of dollars are collected, millions of postcards bought, millions of punch cards prepared, registration is issued, automatic machine running smoothly for the protection of millions of insured workers.

More than six million dollars will be collected in 1938. It is estimated from the 100,000 New York State employers who contribute to the Unemployment Insurance Fund.

Punch Card Records The Division will use more than 17 million punch cards in 1938 to file the names of insured employees. It took more than 13 million punch cards to put the records in working order during the last few months...

The Division of Placement and Unemployment Insurance has not yet reached its third birthday in the State of New York. It has an 8 to 9 million dollar annual budget, about two-thirds of which goes in salaries to its 4,000 employees.

England, however, does not even attempt to gauge benefit payments according to previous earnings, but pays benefits according to a fixed scale based on the average New York State wage on the other hand, it is setting out to pay benefits to unemployed workers not on a family or relief basis, but on an individual basis...

ABOVE: These busy hands are matched many times over in the key punch section of the Division of Placement and Unemployment Insurance. Millions of punch cards are punched daily...

HEIGHT—This is one of many extraordinary machines that make possible the quick computation of benefits for unemployed eligible workers. This machine sorts workers' records that other machines can complete punch records that mean dollars and cents recorded on a 'visible record' card...

What New York State saves, through methods and centralized methods of record-keeping, as against England's haphazard bookkeeping methods, is to keep unemployment insurance administrative costs proportionately low despite the 2 1/2 million dollar annual outlay for the Bureau of an insurance-type program to handle all employer and employee insurance records.

Other Bureaus of the Division of Placement and Unemployment Insurance will be less in the public eye during the next year than the Employment Service and the benefit computing section. Yet they are no less important for effective administration of this new piece of social legislation.

There is, for example, the Bureau of Legal Affairs, the staff of which has spent most of its time in the past two years interpreting the law for employers and assisting in the collection of money due the Unemployment Insurance Fund...

Each month now, this Bureau is issuing approximately 1,600 written elementary interpretations of the Law, and holding from 60 to 120 hearings as a result of summonses issued to employers who did not commit tax claims on rubber checks, and in bankruptcy and receivership cases.

American City Populations; Diversity in Unity

Prepared for the News, by Eugene H. Collison, Assistant Director of State Planning. THE GOOD OLD American slogan "In union there is strength" appears to be applicable only to deep human aspirations and broad purposes.

This strange national composition is brought out strikingly in the Urbanism Report of the National Resources Committee. The report points out that never before in the history of the world have great groups of people so diverse in racial backgrounds been thrown together in such close contact as in the cities of America.

These cities have two-thirds of the population of the nation and in the cases of cities of one million or over, the foreign-born and their children make up nearly two-thirds of the inhabitants. In addition to the foreign immigrants and their children, American cities derive their racial and ethnic diversity from the migration of the Negro from the southern rural areas to the large cities.

Aside from the European immigrants and the Negro city population contains a sprinkling of other racial groups. When in addition we consider the fact that the European immigrants and their children who constitute so large a portion of the city dwellers are by no means homogeneous, but comprise a wide variety of ethnic, linguistic and nationalistic groups, the great diversity of mankind that makes up the American city dweller becomes apparent.

The American city, therefore, consists of human beings with the most diverse cultural backgrounds, often speaking different languages, following a great variety of customs, habituated to different modes and standards of living, and sharing only in varying degrees the tastes, the beliefs, and the ideals of their native fellow city dwellers. In short, far from presenting a picture of a single unified body of human beings, the American city is a mosaic of peoples and cultures forming a mosaic of little worlds which in part bleed with one another but, in part and for a time, remain segregated or come into conflict with one another.

LIFT THE FOG!

That smashing comedy-success of last season which insured thousands of theatre-goers in America and Europe, 'Tovarich', has been rewritten for screen and implanted at the Radio City Music Hall for what may be a phenomenal and outstanding success. The delightful sentimental comedy to a pair of expert performers, the Warner Brothers Film Corp. confidence has already been fruitfully rewarded by the fact that 'Tovarich' has given their most brilliant performance to date.

The story will be recalled as one in which a couple of white Americans, who are forced into mental service in France in order to keep life and limb together. Their experiences and situations which they encounter while in this foreign land, form the background for the first of the most enchanting romantic comedies to have come out of Hollywood. A clever supporting cast is headed by the beautiful Anita Louise. The story is originally written by Jacques Deval.

'LOVE AND HISSES' AT ROXY BY L. T.

'Love and Hises', the current film musical at the Roxy is being retained so that movie fans will get a chance to catch up on their homework. Starring the famous Walter Winchell and Ben Bernie, it takes up the feud of these two warring left-on-in-their-last-picture, 'Wake Up and Live'. Directed by Sidney Lanfield from the screenplay by Charles Kenyon and Art Arthur, 'Love and Hises' introduced for the first time on the screen that already well-known French star, Simone Simon singing her role of comedienne through the picture.

Week of Hits At Hicksville Playhouse

Jack Benny in 'Artists and Models' comes to the Hicksville Playhouse for a two day run starting today. 'Artists and Models' was considered one of the leading comedies of the year, and contains a number of scenes with Jack Benny and his wife, and his children in the leading roles and Martha Raye, Judy Canova, Gail Patrick, and the Yacht Club boys in the supporting cast.

'True Confession', adapted from the famous French play, 'Mon Crime', by Louis Verneuil and Georges Bernier, features Una Merkel, Edgar Kennedy, Louis L. Murray, and William Collier, Sr. and Tommy Dugan in support of the three stars.

The story introduces Carole Lombard as the girl who marries a natural-born liar in the world, married to MacMurray, a struggling young lawyer. In order to get him some publicity which might help his career, Miss Lombard confesses to a murder which has not been committed, and on MacMurray's plea of self-defense, is acquitted.

STATER OF WHO?

EVER been in a controversy on New Year's in your life because of an over-indulgence in drinks, and a function with its accustomed open house, and a trunk to back up your sure you have, and then you undoubtedly are behind in just what kind of a predicament we find night.

Argument involved a discussion which we believe rest to our readers, we will strive to give you the proceedings as we now recall them some while before the year 1938 was ushered in.

We were tired of roaming in and out of all the this portion of Long Island, wandered by the (1) (Sorry, we can't mention the name saloon here because to receive advertisement, must dig into his wallet or something of the kind, and we failed to get any drinks on the table, but we will mention the name of that place) and lo and behold, there, we find several quite well-indebted by this time, and true are invited to partake of a little liquor with

two refused, but just for convention's sake, at the bar, and seemed with sincere earnest-jumbled discourse. It seems that they were the Orange and Black during the late twenties a grudge about just which person graduated titration should get the honorable mention of 1938.

There were at that bar, excluding ourselves, eight up the name of an outlet, and some as graduated from Hicksville some years back of the last decade.

A fellow, in confused and scarcely intelligible saying that Harold Bergold was the "top" at Bergold was a fine football, basketball and what more was needed. Didn't he play gridiron in great style and wasn't his pick-up for many an Orange and Black victory on

vociferously believed that diminutive Louis were the foremost rating as a result of his performance in the four major sports. A third Orist, Lou's brother, hadn't Orist been the ever grace in Long Island gridiron and his Orange and Black nine left nothing to be

and last character stated that Herb Smith led with the best of the Hicksville athletes on the diamond and basketball court was asked from one individual.

Now the last fellow made his say, a pair of class of '33 came strolling over and joined in without even waiting for their elders to their presence (such manners). Luckily, he'd be exchanged as the heat of the argument to that height, the New Year came upon us the first-mentioned quartet left us to recline on the sofas which stood on the side of the

huzzas and hurrahs for 1938, the two new one oldtimer, picked up the argument and ever placid youths, we decided to check and have them talk the thing over sensibly, with the aid of a few Manhattan and the debate was determined peacefully.

Now the last fellow made his say, a pair of boys put in a claim that Lou Kruppatter the best all-around athlete ever developed a high. Wasn't Lou the finest end for many years he the best offensive basketball player in shore and for that matter, still is; wasn't he an infielder and a fine batter. And last, wouldn't more records on the cinder paths belong to Bergold, Small and the Millevotte cent athletes but for all-around brilliance, we that "Cory" was the "tops".

you readers disagree with us and again we set the proverbial bomb off and if so, let us on this question. Don't be bashful, every day to his own choice and so if you have some points on this particular subject, we'd be glad you.

AT JUST A RUMOR we heard about one of Hicksville gridiron stars suggesting a change management of the Hicksville Football Club. Dave Gospi has it that "Red" Gotfrich will bring for the Black and White this fall.

It is stated to play with the Hicksville Field this year. This is good news. If heigh anything on the basketball court, the local high nine should win the north shore cage title in

Orange and Black Opens 1938 Sports Calendar Tonight

Hicksville '5' Meets Roslyn

Travel Dates Begin

Coach Yutzler's Orange and Black football team opens the 1938 sports calendar tonight as they travel to Roslyn to meet the Hilltoppers in the initial Eastern Division league game. Cited as slight favorites to wrest the crown from the Westbury five, the local cagers are confident of getting off to a flying start at the expense of the Roslyn outfit.

Weighted by losses

Although weakened by the loss of Joe Leonard and Phil Pignaro, the Hicksville five presents a well-balanced and experienced array of players that should find little trouble with Pat McCann and Co. Merrill Yarotzky, who paced the mid-landers to a convincing win over Glen Cove before the holidays will start at forward with lanky Fred Kluckinger. Bill Reimels will jump guard for "Big" Novak and other Art McInnes or Pat Nuss will be at guard.

This club averages well up near the six-foot mark and because of this, Roslyn is expected to be rated as heavy favorites to down Roslyn.

Westbury Head

Tom Fitzgerald's Westbury club opens its titular defense tonight at Westbury, facing a scrappy but inexperienced Sea Cliff club. Although weakened by the loss of experienced performers and should romp over the Cliftons.

In the final league encounter in the Eastern sector, Farmingdale plays hosts to the Oyster Bay high cagers. Both of these clubs have potentially strong clubs and a victory for either club at the start may go a long way in advancing these teams in the standings as the season goes by.

Much Confusion About Glovers

Considerable confusion as to the relationship of the Nassau County Golden Gloves series to the tournament annually conducted by The New York Daily News has shown up the preliminary work of both organizations.

Motor Boat Show Opens In N. Y. C.

NEW YORK—The 23rd annual National Motor Boat Show, opening in Grand Central Palace here tonight, will mark the official "launching" of the 1938 boating season with one of the largest exhibits since 1930. Leaders in the boating industry and sport will start gathering next week to discuss plans and programs for the coming year which bids fair to become the best in boating's annals.

SUNNY SWISS WENTERS

John Adolphson, Eymonds telling of the Swiss climate in winter, said that when lunching on the balcony of a chalet at Davos, he lit his cigar by the sun's rays which came through a pocket magnifying glass, and while doing so, cast a shadow on a glass of water beside him, which, deprived of the sun, immediately formed a thin coat of ice.

Brooks Gets Place On Town Board; Name Committee

Elmer G. Brooks of Oyster Bay, recent member of the Oyster Bay town board, took his place on the board Tuesday without ceremony or special comment. Mr. Brooks, who replaced Colonel Henry F. Smith of Cove Neck, was elected last November.

The new councilman took the seat next to Supervisor Mack Tupper, a position at the board table formerly occupied by C. J. Smith.

The town board started the new year with its first meeting yesterday which will probably set an all time low for 1938. The business of the board in the public session was completed in less than a half hour.

Councilman Thomas C. Wade of Locust Valley was named chairman of the north shore beach committee and Councilman John W. Anderson, of Massapequa, chairman of the south shore beach committee. Supervisor Tupper and Mr. Smith will serve on the incinerator committee.

Elimination Bouts Begin

Golden Gloves Start At Hempstead Tennis Courts This Week

"They're off! The Golden Gloves are at it again in the Nassau Star-Review eliminations which got underway late this week at the Academy Tennis Courts, Mill road, Hempstead.

For the second year, boxers from Nassau and Suffolk counties are competing in the eliminations staged at Hempstead, and the winners will meet various other winners from all over the country in the Daily News Tournament of Champions at the Hippodrome and the Madison Square Garden in New York City.

Last year two local lads reached the finals and were later taken on the trip to Chicago where the Windy City scrappers nosed out the Metropolitan boxers. Tony Kellomaki of Manhattan and Tom Roost of Bohague were the two who succeeded and this year they will be back for another crack along with a great number of competitors in the numerous open and sub-novice divisions.

Long Island R. R. Adds Double Deck Passenger Trains

In furtherance of studies aimed to increase the carrying capacity of passenger cars, the Long Island Railroad today placed in operation two newly constructed light-weight experimental all-aluminum double deck passenger cars, announced George L. Bostwick, vice president.

The new double deck cars will be operated for several weeks as part of eight different scheduled trains running every weekday over three branches of the road, namely, the Port Washington, Hempstead and Manhattan branches.

One of the new cars is equipped with four high-speed motors, two at each end and the other, though characterized as a trailer, is equipped with motor control so that the motorman may operate from either end of the double deck.

This operating control over the electrical apparatus of the trailer is accomplished by electric connections with the motor equipment of the leading coach.

The Long Island Railroad indicated its first experiment with the double deck type coach in the late summer of 1932.

Resignation of Russell F. Van Doren as vice president and treasurer of Long Island Lighting Company in conjunction with his retirement from active service under the company's seniority plan has been announced by Edward E. Farrell, president. Mr. Van Doren also has been named as chairman of Nassau and Suffolk Lighting Co.

Kiwanis Club Plans Travel

Hicksville Group Goes To Park Washington Next Tuesday

The Hicksville Kiwanis club is today making plans to conduct a meeting of the recently organized Port Washington club at the north shore community next Tuesday night.

Since the Port Washington group was organized, various clubs on Long Island have been taking turns conducting the weekly program. January 14 has been set as the date for the turn of the Hicksville unit.

Henry W. Howes, chairman of the committee in charge of arrangements for the first annual Kiwanis children's Christmas party made his report at the club luncheon session at the Hicksville Inn last week.

"Santa" Gets Thanks

President Leonard A. Rider called for a rising vote of thanks for William DeFazio, club member, who acted as Santa Claus and all the others were his helpers following the club party.

Mr. Howes won the attendance prize, Harold J. Fisher, club treasurer, received an special award for service. Speakers at the meeting were Herbert Rightmeyer, Dr. Walter F. Shillig, Dr. H. F. Smith, Fred J. Neely, Merris Richman, Fred J. North and John Schwartz was named a special committee to prepare the club's annual achievement report for the national committee on achievement.

Urges Destruction Of Old 1937 Auto Plates at Once

Always—As the issuance of the 1938 license plates began Monday morning, Motor Vehicle Commissioner Charles A. Harrett warned motorists to destroy their old plates as soon as the new ones are attached to their cars.

"Since both 1937 and 1938 plates may be used legally during the month of January," the Commissioner said, "the possibility that the distributed 1937 plates may fall into the hands of criminals has been attached to the commission of a crime."

Mr. Harrett also urged motorists not to wait until the last few days to secure license plates. He only causes confusion, delay and delay in the process of registration, Nassau and Suffolk Lighting Co.

Continue Train Probe

Believe Vandals May Have Tried to Break Train at Hicksville

While Nassau county police and Long Island railroad officials and detectives continued their probe of the apparent attempt to wreck two crowded passenger trains at Hicksville today, a new slant on the probable responsibility for the attempt became known.

It is believed the cross tie placed on the tracks of the east-bound train just west of Hicksville railroad station may have been the work of some youths or intoxicated laborers taking a shortcut across the tracks.

More than 100 employees of the railroad agency have been interviewed by authorities investigating the incident since the incident nearly two weeks ago.
