

Things, Thoughts and Theories

By Martin W. Littleton
Former District Attorney of Nassau County

LAST WEEK THE COMMUNISTS HELD A CONVENTION. It was their tenth annual "kaffee-klatch". They devised some remarkable means and ways by which to further their murderous and revolutionary intentions under a thinly veiled mantle of peace, patriotism and religion.

Earl Browder, Communist spokesman, said, "like Jefferson we believe that America is entitled to the best of everything regardless of its point of origin." What, in Heaven's name, may we ask, has the Communist to offer America? The answer to this question requires only a very quick superficial look in the general direction of Russia.

"WITHIN THE CAMP OF DEMOCRACIES ARE ENCLOSED THE MAJORITY OF MEMBERS OF THE CATHOLIC CHURCH. WE COMMUNISTS EXTEND THE HAND OF BROTHERLY CO-OPERATION TO THEM AND EXPRESS OUR PLEASURE TO FIND OURSELVES FIGHTING THE SAME BATTLE TO SHOULDER WITH THEM FOR THE SAME ECONOMIC AND SOCIAL AIMS." Thus again spoke Earl Browder.

Can ANYTHING BE MORE REVEALING than this clearly false and sacrilegious statement? Can anyone shoulder for the same economic and social aims? Or can other religious denominations, for that matter, which are for its objective an honest and reverential worship of God?

Just what are the Communists' "social aims"? By authenticated, recorded documents issued by Stalin we should know, that amongst other things, are included the abolition of the family; abolition of marriage; abolition of Christianity; and abolition of all mortality.

LET'S EXAMINE SOME OF THE UNQUESTIONED "AIMS" of the Communist Party.

Lilina, wife of Zinovieff, former Directress of Public Instruction at Petrograd, said, "Love of parents is more than that not a harmful love, and the child brought up in the family is generally anti-social."

Karl Marx wrote: "To allow the teaching of the religious superstition in the schools is to favor the diffusion of religious prejudices among the masses."

The Communist Public Instruction Lunacharsky, said, "We hate Christians. They are proud and pious, which are contrary to our principles." Down with love of his neighbor, what we want is hatred."

Former Soviet Ambassador in Mexico, Comrado Solente, wrote: "Immortality in the schools is making satisfactory progress; many young girls of 15 are already pregnant. We may rejoice, for we shall have some more 'Communists.'"

IT DOES NOT REQUIRE MUCH SEARCH OR STUDY to find the real, hideous objectives of Communism, which now seeks to masquerade under many different titles of high-sounding slogans. The snake changes its skin—it will always be a snake!

OUR TASK, WORLD REVOLUTION, are the words written by Lenin's tomb and left as a heritage to Stalin. Stalin has carried forward the philosophies of Lenin, derived from his statements directed to the United States in 1926. "It is of extreme importance to the life and death of the Communist Party that its members realize the necessity of more intensive work in the labor unions. The capture of the LEADERSHIP of the Labor Union is vitally necessary, not only for the Communist Party at the present time, but also for the ultimate victory of the revolutionary struggle. The capture of the labor unions is our first and foremost task."

It would seem from many present day indications that the words of Stalin's, uttered twelve years ago, are bearing fruit.

THE COMMUNISTS DEMAND FREEDOM OF PRESS AND CIVIL LIBERTY under OUR CONSTITUTION and they get it. What do you suppose would happen if a few Americans set up an American Communist Party in Moscow and advocated the abolition of the democratic Government and the establishment of a constitutional democracy???

First of all, they would not be allowed in Russia until VERY COMPLETE INVESTIGATION had been made of them and their purposes. If they were able to conceal their objectives and passed the examination for admission to the country, the first indication of their plan, however small, would bring them summarily before a firing squad. Thus, Communist slaughters and destroys in the name of Freedom and Religion!

WE HAVE BECOME VERY SENSITIVE about the right to freedom of speech, and are going to great extremes to preserve it—even if it will ultimately kill us. We are very liberal and generous in our treatment of alien enemies. We make absolutely no effort to free ourselves of the pernicious germs which are feeding on our very substance and vitality.

"WELL, NOBODY ELSE CARES ABOUT IT, SO WHY SHOULD I?" ... That seems to be the national attitude,—so with that I guess I'll go out and play golf.

Dr. Stillger Brands War Racket

(Note.—The following is a copy of the remarks made by Dr. Walter F. Stillger at the Memorial Day exercises at the high school. Dr. Stillger is a past Legion member, President of the Hicksville Kiwanis club, former Oyster Bay town health officer and present health inspector of Hicksville school.)

It is the third time I have given the honor of speaking at this Memorial Day. I have given the internal affairs of Europe, with the nations of Czechoslovakia, with war in Spain and China, and with all the great nations of the world arming to the teeth, never before has the outlook been more ominous and therefore never before have the messages of the Memorial Day speakers been so greater or more vital importance. I fully realize the grave responsibility upon our shoulders and will try to clarify some of the vital questions before our people today, giving you the viewpoint and opinion of the majority of World War veterans.

By your presence here today you give proof that you honor the dead and are willing to forego the

New 300-Car Area Now Ready To Handle Local Business Trade

Hicksville's free community parking lot behind the Professional building on Broadway near Bay Street is ready for use today. Sponsors of the project are taking steps to insure its use by businessmen and patrons alike by pressing for the strict enforcement of the community's parking regulations.

The 300-car area has entrances on East Barclay street and Broadway. The use of the field is allowed through the courteousness of its owners and the graveled and cinders for the lot was donated.

The project was started by the Hicksville Kiwanis club under the direction of the 20-member parking lot committee headed by Dr. Walter F. Stillger. A sign has been posted listing the sponsors of the field, local business and professional men who have contributed toward its operation and maintenance.

Want Law Enforced To Encourage Use of the Area

To encourage the use of the area, now that it is ready, strict enforcement of the 20-minute parking law in the business district is being sought. It was learned this morning. Signs may be erected at various points about the village, calling attention to the location of the lot.

The area is adjacent to the shopping center of Hicksville. It represents one of the 20-minute parking areas of a long period campaign. Trade is being driven out of Hicksville, merchants feared, because of the lack of proper parking facilities in the area.

Councilman John R. Brandt of Hicksville has promised those interested in the project that re-paving of the arrangement on Broadway between the railroad tracks on the north and Cherry street on the south end of Broadway will be undertaken within the next couple of weeks.

The re-lining of the parking spaces has been delayed, it is explained, because Broadway is a state highway. Therefore, funds of the town highway department cannot be used to purchase the necessary paint or hire the labor.

District Court Judge Joseph P. Lebuscher has promised strict enforcement of the parking limit as soon as the street is re-marked with a state highway. Therefore, funds of the town highway department cannot be used to purchase the necessary paint or hire the labor.

He recalled several community and club projects which the Oyster Bay town has, by the first nine months of its existence which included a kiddie party and the establishment of a community center.

Growing Culinary Herbs

By A. F. Griffiths. Almost every family has space in the garden for growing herbs useful as seasoning. These spicy and fragrant little plants can be started in a window box, although a plot about 10 by 12 feet is better to produce summer-long supplies and yield a few dried herbs for winter use.

Popular herbs are parsley, chives, mint, basil, thyme, tarragon, and sweet marjoram. Other savory herbs that grow well in this part of the country are summer savory, fennel, and caraway. Basil is easy to grow both as a border with flowering annuals and in a pot in winter time. It is particularly good for flavoring tomato soups and other tomato dishes.

Fresh dill leaves are so good for seasoning creamed chicken or eggs as the flowers are for flavoring pickles. Marjoram, sage, and thyme, in varying proportions, are the savory herbs most people use for seasoning poultry stuffings. Sage is an old favorite in ground sausage meat.

A few mint plants in the garden will flavor cool drinks all summer long. Mint stalks are used frequently in bread stuffing for roast lamb. Women in home demonstration clubs in many areas are taking up herb gardening as a sort of specialty in enliven their cookery. Some have grown herbs for sale.

The cinemaster, so the motorists of the trucker, doesn't share the load alone. It is hoped by both sides that the extra emergency tax of two cents may be abolished soon, but until business improves, the \$40,000,000 it brings in would be hard to do without.

The Nassau Democratic Lawyers Committee has gone on record as favoring home-rule by referendum. It is not in accord with the principle of home-rule in the County Charter. Littleton O. Lottier, former Nassau district attorney, eloquently pleaded for the abolition of the gambling prohibition in the Constitution when he appeared before the Bill of Rights Committee last week. "Gambling is a real, existing evil," said Mr. Littleton, "it can't be stopped, it should be controlled. The prohibition should be taken out of the Constitution and regulation left up to the Legislature."

Garden Lilies

By L. M. Massey. Of all garden flowers, few are more beautiful than the lily. In fact, lilies have been called the crowning glory of a well planned garden. Twelve of fifteen different species of lilies can be grown successfully in almost any garden if they are planted in the right place and diseases are controlled.

Mosaic is the most widespread and serious disease of lilies. It is caused by a virus so small that no microscope will show it, and the only way to detect the disease is by the symptoms produced by the virus. These symptoms are usually striking enough. Leaves and stems are often twisted, and the leaves are usually mottled into a light and dark green pattern. Plants with this disease are commonly stunted, and the flowers few and worthless because of their discoloration and distortion. The wise gardener uproots and burns any plants that show symptoms of mosaic.

Infected bulbs usually introduce the disease into the garden. Since it is impossible to tell at a glance whether a bulb is healthy, the best plan is to keep any new lily bulb that are bought under close observation during the first growing season. Any that show symptoms of mosaic should be burned.

HOW DOES HE DO IT?

WHY PAY MORE?

THERE'S NOTHING NEW ABOUT THE "NEW DEAL" IN LONG ISLAND!

Come to think of it, 'twas KING KULLEN who brought the "new deal" to Long Island long before it became a national argument. A NEW DEAL in food buying that the people took to their hearts! A new deal that brought the world's finest foods within reach of the most modest incomes! A new deal that brought convenience and economy in food shopping undreamed of before! A new deal that helped folks save as they've never saved before! A new deal that has helped make Long Island the thriftiest and pleasantest place on earth to live in and prosper!
